SOME CHANGES REQUIRED ○
COMPLIANT ○ **IMPROPER** ○

Sketch of a natural development proposal for your shoreline strip

Features

- Slope less than 30%
- 10 meters minimum of riparian strip
- Slope greater than 30%
- 15 meters minimum of riparian strip
- Enough trees
- It's missing ≈ _____.
- Enough shrubs
- It's missing ≈ _____.
- Unmown grasses
- Stop mowing _____ meters.

Legend

- ~ Land details
- ~ Non-compliant object
- Trees
- ✕ Shrubs
- ... Minimum replanting
- Herbaceous plants not mowed minimum
- || Access to the shore
- ≡ Lake

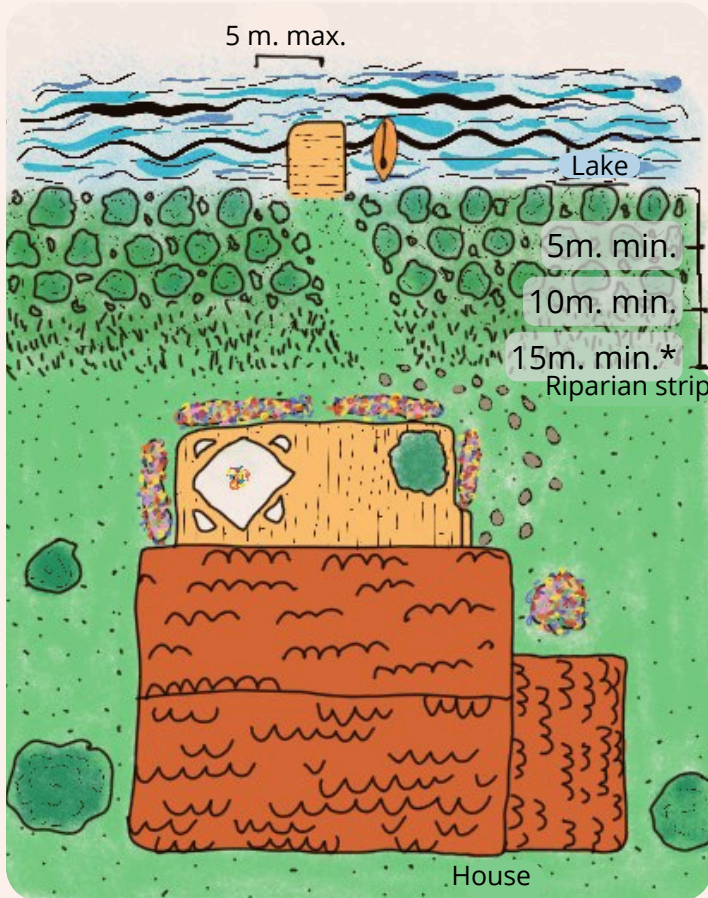

Advice and changes to make to respect nature and regulations.

Municipality of Val-des-Lacs Inspection of riparian areas

Sketch of an example of land development with the riparian strip.

The water and the water's edge are not crowded. The dock is compliant and the boats are located within the access of a maximum of 5 meters wide.

The trees are planted staggered in the riparian strip with shrubs, at least in the first 5 meters. The lawn is left long or in its natural state at least in the first 10 meters. No fertilizers, pesticides, herbicides or the like are used.

*In the case of a slope greater than or equal to 30%.

Sketch of the high water mark which marks the start of the riparian strip, as well as the slopes on the land.
